

**Consultation to define Priority Medical Devices for Cancer Management,
Targeting low and middle income settings
Provisional Agenda
28 and 30 April 2015, Geneva, Switzerland**

Day 1		
Wednesday 29th April 2015, Salle G		
08:30-09:00	Registration WHO	
09:00-09:30	SESSION 1: Welcome session	
5 min	Welcome	<i>K de Joncheere, WHO</i>
5 min	Meeting objectives	<i>G Forte, WHO</i>
15 min	Introduction of participants	<i>All</i>
5 min	Selection of chair	<i>All</i>
9:30-10:30	SESSION 2:Background	
15 min	WHO NCDs Action Plan and Epidemiology of Cancer	<i>C. Varghese, WHO</i>
5 min	Medical devices for cancer management overview	<i>A Velazquez, WHO</i>
5 min	Preliminary meetings	<i>M Mikhail, WHO</i>
10 min	Selection of the clinical guidelines and interventions	<i>A. Migliore, WHO</i>
10 min	Selection of medical devices for interventions defined	<i>G. Jimenez, WHO</i>
15 min	Q&A and discussion	
10:30-11:00	<i>Coffee break</i>	
11:00-12:30	SESSION 3: Regional and country perspective	
10 min	Overview	<i>J. Torode, UICC</i>
5 min	African Region	<i>J. B. Ndihokuwayo, WHO</i>
5 min	Ghana	<i>N. Adjabu and K. M. Nyarko, MOH</i>
5 min	Tanzania	<i>V. Mbanga, MOH</i>
5 min	Uganda	<i>J. Orem, Director Uganda Cancer Institute.</i>
5 min	Zambia	<i>M. Mwanahamuntu, University of Zambia; G. Parham, CCPPZ</i>
5 min	Eastern Mediterranean Region	<i>A. I. Moneim, WHO</i>
5 min	European Region	<i>H. Pedersen, WHO</i>
5 min	Sri-Lanka	<i>M. Jayatilaya, Biomedical Engineer D.</i>
5 min	India	<i>J. K. Sharma, MOH</i>
35 min	Q&A and discussion	
12:30-13:30	LUNCH	
13:30-15:00	SESSION 4: Guideliness and clinical interventions selection	
10 min	WHO cervical cancer guidelines	<i>A. Ullrich, WHO</i>
10 min	Breast Health Global Initiative (BHGI) , resource stratified guidelines	<i>B. Anderson, BHGI</i>
10 min	ESMO Emerging Countries Task Force	<i>A. Eniu, ESMO</i>
10 min	Latin american perspective of clinical guidelines	<i>E. Cazap, SLACOM</i>
10 min	Clinical imaging referral Guidelines	<i>M Mikhail, WHO</i>
10 min	Patient perspective on access to cancer management	<i>J. Bilinska, IAPO</i>
10 min	WHO CHOICE- cost-effective analysis of cancer interventions.	<i>J. Lauer, WHO</i>
20 min	Q&A and discussion	
15:00-15:30	<i>Coffee break</i>	

15:30-17:00	SESSION 5: Devices and prioritization	
10 min	Challenges to select and prioritize medical devices	<i>A. Velázquez, WHO</i>
10 min	Essential Medicines List	<i>N. Magrini</i>
10 min	Radiotherapy equipment access	<i>M. Gospodarowicz, UICC</i>
10 min	Country assessments for radiotherapy equipment	<i>M. Abdel-Wahab, IAEA</i>
10 min	Equity concerns on access	<i>D. Fadelu, Harvard Global Equity Initiative</i>
10 min	Building health infrastructure	<i>M.A. Muñoz UNOPS</i>
10 min	Supply and procurement challenges	<i>L. Scheerlinck, UNICEF</i>
20 min	Q&A and discussion	
17:00-17:45	SESSION 6: Panel on the role of NGO's	
	Donations	<i>HUMATEM</i>
	Ultrasound	<i>WFMUB</i>
	Biomedical engineering	<i>IFMBE</i>
	Radiology	<i>ISRRT</i>
	Radiation device industry	<i>DITTA</i>
	Medical physics	<i>IOMP</i>
	Laboratory and pathology	<i>WASPaIM</i>
	Health technology assessment	<i>HTAi</i>
	Medical technologies industry	<i>GMTA</i>
	Innovative and emerging technologies for cancer	<i>EUROSCAN</i>
17:45-18:00	Selection of the members for breakout sessions.	

Day 2		
Thursday 30th April 2015, M.605		
09:00-10:30	SESSION 7: Technical overview	
30 min	Technical overview of share point tool medical devices for cancer management	<i>G. Jimenez, WHO; A. Migliore WHO.</i>
10 min	Health care facilities definition	<i>A. Velazquez, WHO</i>
20 min	Proposal for in country assesment and planning workshop	<i>A. Velazquez, WHO</i>
30 min	Q&A and discussion	
10:30-11:00	<i>Coffee break</i>	
11:00-12:30	SESSION 8: Breakout sessions	
L.10	Group 1: Primary Clinical Assessment, Surgery and Anaesthesia	<i>Facilitator: A. Velázquez, WHO</i>
L.14	Group 2: Pathology, Laboratory	<i>Facilitator: G. Jimenez, WHO</i>
L.18	Group 3: Diagnostic Imaging, Radiotherapy	<i>Facilitator: M. Mikhail, WHO</i>
X.10	Group 4: Chemotherapy, Palliative Care	<i>Facilitator: A. Migliore, WHO</i>
12:30-13:30	LUNCH	
13:30-15:30	SESSION 9: Breakout sessions	
L.10	Group 1: Cervical Cancer, Breast Cancer	<i>Facilitator: G. Jimenez, WHO</i>
L.14	Group 2: Lung Cancer	<i>Facilitator: M. Mikhail, WHO</i>
L.18	Group 3: Leukemia	<i>Facilitator: A. Velázquez, WHO</i>
X.10	Group 4: Prostate Cancer, Colo-Rectal Cancer.	<i>Facilitator: A. Migliore, WHO</i>
15:30-16:00	<i>Coffee break</i>	
16:00-17:00	SESSION 10: Group Presentations and Discussion	
5 min each group	Groups presentations and discussion	<i>All</i>
17:00-17:45	SESSION 11: Meeting Adjournment	
	Summary of Meeting /Proposed Way Forward -Achieve consensus; agree to collaborative next steps -Individual entity and group timeline	<i>A. Velazquez, WHO</i>
17:45-18:00	Closing statement of thanks	

WHO Consultation
***Consultation to define Priority Medical Devices for Cancer Management,
Targeting low and middle-income settings.***
Session objectives

Session 1. Welcome session.

Objective: To present the WHO strategies and tools for cancer management.

Session 2. Background.

Objective: To present the regional and country perspective of medical devices for cancer management.

Session 3. Regional and country perspective.

Objective: Understand the regional and country challenges faced in relation to medical devices for cancer management.

Session 4. Guidelines and clinical intervention selection.

Objective: Discuss cancer guidelines with consideration of resource levels and potential stratification.

Session 5: Devices and prioritization.

Objective: Discuss methodologies to prioritize medical devices.

Session 6: Panel about the role of NGOs

Objective: Define the potential role of attending organizations towards increasing access to medical technologies for cancer management in LMICs.

Session 7: Technical overview

Objective: Present the methodology and resulting list of medical devices for cancer management and discuss initiatives for in country implementation.

Session 8: Breakout session- specialized units

Objective 1: Discuss suitability of medical devices defined for specialized units.

Objective 2: Discuss placement of specialized units in the different types of healthcare facility.

Objective 3: Classify the medical equipment based on availability of resources.

Objective 4: Define the criteria for the selection and quantification of medical devices required in specialized units.

Session 9: Breakout session- types of cancer

Objective 1: Discuss the interventions defined in the developed tool on medical devices for cancer management.

Objective 2: Discuss the classification of the interventions described with consideration of resource levels.

Objective 3: Discuss the suitability of medical devices identified in the tool on medical devices for cancer management.

Objective 4: Identify specialized resources needed for completion of the Project.

Objective 5: Identify the criteria for the selection and quantification of medical devices required for discussed interventions.

Session 10: Group Presentations and Discussion

Objective: Present outcomes of breakout sessions.

Session 11: Meeting Adjournment

Objective: Define what, when and where of the further actions .
